

Survive and Thrive

Community Resource Program Weekly Bulletin – Issue 3

How To Be More Resilient When Things Get Tough

1. Don't try to solve problems with the same thinking that created them.
2. Have a positive outlook and focus on what you can learn from the experience.
3. Face your fears and have an adaptive attitude that lets you focus on the possibilities even in the worst of times.
4. Work hard and take joy in the small wins that give you strength.

Blowing up Balloons

Pretend to pull a balloon out of your pocket. Cup your hands together and hold them in front of your mouth.

Take a deep breath and as you exhale slowly expand your hands as if filling a balloon.

When you are finished, take a deep breath and slowly close your hands back together as you “deflate the balloon”.

Repeat this 5 times.
